SUMMARY

More than 10 years PHP/MYSQL experience

PROFILE

Experienced and innovative web developer with over 10 years experience. Proficient in working on a range of sites from small starter sites to large corporations. Able to work productively and instinctively with good initiative. Excellent problem solving skills.

Key Skills

- PHP MySQL jQuery CSS, HTML, Bootstrap 4,
- Also practical experience of Laravel, Vue.js, Wordpress

EXPERIENCE

2003 to 2017 Present Freelance Web developer

Ceroc.Com

Worked on numerous projects for the firm mostly on their intranet system including sole design and development of their franchise fees event listing and accounting system. This enabled franchises to add and promote events with an integrated accounting and fees payment system. Developed several modules such as the voucher system to increase the firms revenue and created new apps such as [find the nearest venue](#) and [holiday booking system](#). Prototyped new apps using technology such as Phonegap.

Pre Ceroc.Com

Worked on small business sites mostly doing programming for a freelance designer at <http://goodanswers.net/> where I worked on a per project basis both modifying template sites such as Oscommerce and creating bespoke PHP scripts. Designed and sold some phone games using the Lua and Java programming language.

2001 – 2002 BAE Systems

1 Year Software Contract programming in ADA Working to MOD standards on safety critical software.

1998 to 2001 J and S Marine

Real Time Embedded Software Engineer. Duties included the design and implementation and documentation of complex real time systems British naval products and sonar equipment. Programming in C ADA and C++

EDUCATION

Open University Bsc. Hons 2.1 Specializing in software engineering
Robert Gordons Institute of Technology Bsc. In Electrical Engineering

INTERESTS

Physically active and fit. I am a member of the local cycle club and cycle about 100 miles a week. I am interested in all the newest web technologies and have some experience of Laravel and Vue.js.
